

Venkatraman Nagarajan

Senior Full Stack Engineer | .NET Core & Azure Cloud Specialist

Chennai, India (Open to relocation) • venkatdotdev@gmail.com • venkatdotdev.com • linkedin.com/in/venkatase • github.com/VenkatASE

SUMMARY

Senior Full Stack Engineer with 10+ years delivering enterprise-grade software across FinTech, Healthcare, and Retail. Specialises in .NET Core, C#, React, and Azure cloud services, with a strong track record of building secure, scalable, event-driven systems that perform reliably under real-world load. Experienced across the full lifecycle: API and microservices design, CI/CD automation, and cross-functional delivery in regulated domains.

EXPERIENCE

Senior Full Stack Developer Jun 2025 – Present
[UPS Healthcare](#)

- Design and build scalable full stack solutions using .NET Core and React for WMS and healthcare supply chain platforms.
- Develop and maintain RESTful APIs integrating warehouse operations, order management, and logistics systems.
- Implement Azure-based cloud services to ensure high availability, security, and compliance in a regulated healthcare environment.
- Optimise database queries and backend processes to support high-volume warehouse transaction processing.

Specialist – Cloud and Software Development Jul 2022 – May 2025
[LTMindtree](#)

- Developed and deployed enterprise-grade RESTful APIs using .NET Core and C# for financial systems, ensuring performance and security compliance.
- Designed event-driven microservices architecture using Azure Service Bus, Queues, and Topics for asynchronous, high-throughput communication.
- Integrated Azure Blob Storage and Azure Key Vault for secure document handling, secrets, and certificate management.
- Built CI/CD pipelines using GitHub Actions and Azure DevOps, improving deployment speed and reducing release cycles.

Senior Software Engineer Dec 2018 – Jun 2022
[Data Software Research Company](#)

- Delivered enterprise-scale retail and ERP solutions for cash-and-carry businesses, including inventory, billing, and user management modules.
- Built Retail360, a multi-store POS engine with real-time stock synchronisation, barcode scanning, and centralised reporting.

Software Developer May 2016 – Dec 2018
[Netmeds](#)

- Developed and maintained an e-commerce platform for online pharmacy services, including browsing, order placement, and prescription uploads.
- Designed RESTful APIs and dynamic web modules using .NET Core and MVC, with SQL Server and MySQL for secure medical data handling.

SKILLS

Languages	C#, TypeScript, HTML5, CSS
Frameworks	.NET Core, ASP.NET MVC, React, Web API
Cloud & DevOps	Azure (Service Bus, Blob Storage, Key Vault, AKS, Functions), Azure DevOps, GitHub Actions, CI/CD, Docker
Databases	SQL Server, PostgreSQL, MySQL, MongoDB
Architecture	Microservices, Event-Driven Systems, REST APIs, OAuth 2.0 / JWT / RBAC
AI-Assisted Dev	GitHub Copilot, Claude — daily pair programming and code review

CERTIFICATIONS

- Microsoft Certified: Azure Fundamentals (AZ-900) — Microsoft, 2024
- GitHub Foundations — GitHub, 2024

EDUCATION

Master of Computer Applications (MCA) Madurai Kamaraj University College, Madurai — GPA: 8.0/10.0	2012 – 2015
B.Sc. Information Technology Mannar Thirumalai Naicker College, Madurai — CGPA: 7.8/10	2009 – 2012
